Please refer to STB Finance Docket No. 35087 in all correspondence addressed to the Surface Transportation Board. Comments must be submitted by February 1, 2008.

STB Finance Docket No. 35087

A primary concern of how emergency service lead-times (ie; fire, police, ambulance) from station to emergency location to hospital will be effected. There is many areas of Barrington delayed enroute by passing freight? Many emergency conditions rely on medical attention within specific windows of time. (ie; stroke, ncrs, etc) How will the timely retrieval and deliverance to hospitals be ensured for ~~the~~ all areas of the Barrington community. I hope this will be considered and addressed by CN. Many trucks may need access to immediate or minimal delayed crossing more than once in a single service call. Will CN be liable for lives lost due to freight-train induced delays to emergency services?
